# REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION BY THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

# TO THE BOARD OF DIRECTORS THAI CENTRAL CHEMICAL PUBLIC COMPANY LIMITED

We have reviewed the consolidated statement of financial position of Thai Central Chemical Public Company Limited and its subsidiaries and the separate statement of financial position of Thai Central Chemical Public Company Limited as at June 30, 2020, and the related consolidated and separate statements of comprehensive income for the three-month and six-month periods ended June 30, 2020, and the related consolidated and separate statements of changes in shareholders' equity, and cash flows for the six-month period ended June 30, 2020, and the condensed notes to the financial statements. The Company's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard No. 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review.

#### **Scope of Review**

We conducted our review in accordance with Thai Standard on Review Engagements No. 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the aforementioned interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard No. 34, "Interim Financial Reporting".

#### **Coronavirus Disease 2019 Pandemic**

The Coronavirus disease 2019 ("COVID-19") pandemic is continuing to evolve, resulting in an economic slowdown and adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the business environment. Nevertheless, the Group's management will continue to monitor the ongoing development and regularly assess the financial impact in respect of valuation of assets, provisions and contingent liabilities.

# 2. BASIS FOR PREPARATION AND PRESENTATION OF THE CONSOLIDATED AND SEPARATE INTERIM FINANCIAL STATEMENTS

- 2.1 These consolidated and separate interim financial statements are prepared in Thai Baht and in compliance with Thai Accounting Standard ("TAS") No. 34 "Interim Financial Reporting" and accounting practices generally accepted in Thailand. The Company presents the condensed notes to the interim financial statements and the additional information is disclosed in accordance with the regulations of the Office of the Securities and Exchange Commission.
- 2.2 The consolidated and separate statements of financial position as at December 31, 2019, presented herein for comparison, have been derived from the consolidated and separate financial statements of the Company for the year then ended which had been previously audited.
- 2.3 The unaudited results of operations presented in the three-month and six-month periods ended June 30, 2020 are not necessarily an indication nor anticipation of the operating results for the full year.
- 2.4 Certain financial information which is normally included in the annual financial statements prepared in accordance with Thai Financial Reporting Standards ("TFRS"), but which is not required for interim reporting purposes, has been omitted. Therefore, the interim financial statements for the three-month and sixmonth periods ended June 30, 2020, should be read in conjunction with the audited financial statements for the year ended December 31, 2019.
- 2.5 Material intercompany transactions between the Company and its subsidiaries have been eliminated from this interim consolidated financial statements. The interim consolidated financial statements for the three-month and six-month periods ended June 30, 2020, have included the subsidiaries' interim financial statements for the three-month and six-month periods ended June 30, 2020 which were reviewed.
- 2.6 Thai Financial Reporting Standards affecting the presentation and disclosure in the current period financial statements

During the period, the Group has adopted the revised and new financial reporting standards and guidelines on accounting issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after January 1, 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standards which become effective for fiscal year and involve changes to key principles are summarized below:

# Group of Financial Instruments Standards

# Thai Accounting Standards ("TAS")

TAS 32 Financial Instruments: Presentation

# Thai Financial Reporting Standards ("TFRS")

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

# Thai Financial Reporting Standard Interpretations ("TFRIC")

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These group of Standards make stipulations relating to the classification of financial instruments and their measurement at fair value or amortized cost; taking into account the type of instrument, the characteristics of the contractual cash flows and the company's business model, the calculation of impairment using the expected credit loss method, and the concept of hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

The Group's management has assessed the impact of such Financial Instruments Standards for the classification of financial assets and financial liabilities as follows:

As at June 30, 2020, current investments of Baht 1,100.71 million and Baht 950.00 million are classified as other current financial assets in the consolidated and separate financial statements, respectively (see Note 7).

#### Thai Financial Reporting Standard No. 16 "Leases" ("TFRS 16")

TFRS 16 provides a comprehensive model for the identification if lease arrangements and their treatment in the financial statements of both lessees and lessors. This TFRS superseded the following lease Standards and Interpretations upon its effective date, which are Thai Accounting Standard No. 17 "Leases", Thai Accounting Standard Interpretation No. 15 "Operating Lease - Incentives", Thai Accounting Standard Interpretation No. 27 "Evaluating the Substance of Transactions involving the Legal Form of a Lease" and Thai Financial Reporting Standard Interpretation No. 4 "Determining whether on Arrangement contains a Lease".

#### a) Impact of the new definition of a lease

The change in definition of a lease mainly relates to the concept of control. TFRS 16 determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration. This is in contrast to the focus on "risk and rewards" in TAS 17 and TFRIC 4.

The Group applies the definition of a lease and related guidance set out in TFRS 16 to all lease contracts entered into or changed on or after January 1, 2020 (whether it is a lessor or a lease in the lease contract). In preparation for the first-time application TFRS 16, the Group has carried out an implementation project. The project has shown that the new definition in TFRS 16 will not significantly change the scope of contracts that meet the definition of a lease for the Group.

### b) Impact on Lessee Accounting

Former operating leases

TFRS 16 changes how the Group accounts for lease previously classified as operating leases under TAS 17, which were off balance sheet.

Applying TFRS 16, for all leases (except short-term leases and leases of low-value assets as noted in c), the Group:

- 1) Recognizes right-of-use assets and lease liabilities in the statement of financial position, initially measured at the present value of the future lease payments, with the right-of-use asset adjusted by the amount of any prepaid or accrued lease payments in accordance with TFRS 16.
- 2) Recognizes depreciation of right-of-use assets and interest on lease liabilities in the statement of comprehensive income.
- 3) Separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within financing activities) in the statement of cash flows.

Lease incentives (e.g. rent free period) are recognized as part of the measurement of the right-of-use assets and lease liabilities whereas under TAS 17 they resulted in the recognition of a lease incentive, amortized as a reduction of rental expenses on a straight line basis.

Under TFRS 16, right-of-use assets are tested for impairment in accordance with TAS 36.

#### c) Short-term leases and leases at low-value assets

For short-term leases (lease term of 12 months or less) and leases of low-value assets, the Group has opted to recognize a lease expense on a straight-line basis as permitted by TFRS 16. This expense is presented in the statement of comprehensive income.

The Group has used the following practical expedients to leases previously classified as operating leases applying TAS 17.

- The Group has applied a single discount rate to a portfolio of leases with reasonably similar characteristics.
- The Group has adjusted the right-of-use asset at the date of initial application by the amount of provision for onerous leases recognized under TAS 37 in the statement of financial position immediately before the date of initial application as an alternative to performing an impairment review.
- The Group has elected not to recognize right-of-use assets and lease liabilities to leases for which the lease term end within 12 months of the date of initial application.

- The Group has excluded initial direct costs from the measurement of the right-of-use asset at the date of initial application.
- The Group has used hindsight when determining the lease term when the contract contains options to extend or terminate the lease.

#### Former finance leases

For leases that were classified as finance leases applying TAS 17, the carrying amount of the leased assets and obligations under finance leases measured applying TAS 17 immediately before the date of initial application is reclassified to right-of-use assets and lease liabilities respectively without any adjustments, except in cases where the Group has elected to apply the low-value lease recognition exemption.

The right-of-use asset and the lease liability are accounted for applying TFRS 16 from January 1, 2020.

### Financial impact of the initial application of TFRS 16

The Group's management has applied TFRS 16 which the comparative information has not been restated and is presented under TAS 17 and TFRIC 4.

The Group recognized lease liabilities in relation to leases, which had previously been classified as operating leases under the principles of TAS 17. The right-of-use assets were measured at amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the statement of financial position immediately before the date of initial application. These liabilities were measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rates. The weight average lessees incremental borrowing rate applied to lease liabilities recognized in the statement of financial position on January 1, 2020 is 3.56%.

The following table shows the operating lease commitments disclosed applying TAS 17 at December 31, 2019, discounted using incremental borrowing rate at the date of initial application and the lease liabilities recognized in the statement of financial position at the date of initial application.

	(Unit : Thousand Baht)		
	Consolidated	Separate	
	financial	financial	
	statements	statements	
Operating lease commitments at December 31, 2019	45,865	36,813	
Short-term leases and leases of low-value assets	(20,108)	(11,056)	
Effect of discounting the above amounts	(1,328)	(1,328)	
Lease liabilities recognized at January 1, 2020	24,429	24,429	

The Group has recognized the right-of-use assets at amount equal to the lease liability of Baht 24.43 million in the consolidated and separate financial statements, and reclassified leasehold right of Baht 73.10 million as at January 31, 2020 as right-of-use assets, upon the transition to TFRS 16 (see Note 10).

In addition, the Federation of Accounting Professions has announced two Accounting Treatment Guidances, which have been announced in the Royal Gazette on April 22, 2020. The Group elected to apply one Accounting Treatment Guidance, detail as follows:

Accounting Treatment Guidance on "The temporary relief measures for additional accounting alternatives to alleviate the impacts from COVID-19 outbreak"

This accounting treatment guidance is the option for all entities applying Financial Reporting Standards for Publicly Accountable Entities. Since the preparation of financial statements during the period, which COVID-19 situation still be highly uncertainty as at the end of reporting period may cause the entities' management to use the critical judgment in the estimation or the measurement and recognition of accounting transactions. Objective of this accounting treatment guidance is to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation. The entities can apply this accounting treatment guidance for the preparation of financial statements with the reporting period ending within the period from January 1, 2020 to December 31, 2020.

The Group has elected to apply the following temporary relief measures:

- Not to take into account forward-looking information when determining expected credit losses, in cases where the Group uses a simplified approach to determine expected credit losses.
- 2.7 The consolidated interim financial statements include the account balances of the Company and the subsidiaries, after eliminating intercompany transactions and balances. The Company's shareholdings in subsidiaries are as follows:

	As at		As at	
	June 30	,	December 31,	
	2020	2019	2019	
	Percentage of shareholding		Percentage of shareholding	
N.I.M. Company Limited	51.00	51.00	51.00	
MC Agro-Chemicals Company Limited	99.99	99.99	99.99	
TCCC Myanmar Limited	99.99	99.99	99.99	

2.8 The interim consolidated and separate financial statements are prepared in English version followed the consolidated and separate interim financial statements prepared in Thai language under Thai laws. In the event of any conflict or different interpretation in the two languages, the Thai version of interim consolidated and separate financial statements will prevail.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements have been prepared based on the basis, accounting policies and method of computation consistent with those used in the financial statements for the year ended December 31, 2019, except the adoption of new and revised Thai Financial Reporting Standards as described in Note 2. Accounting policies which significantly changed are as follows:

#### Financial instruments

Financial assets and financial liabilities are recognized in the Group's consolidated and separate statement of financial position when the Group becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value.

#### Financial assets

The Group's financial asset represents time deposits with maturity date over 3 months but less than 1 year which is measured subsequently in their entirely at either amortized.

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

#### Leases

The Group's management has applied TFRS 16 which the comparative information has not been restated and is presented under TAS 17. The details of accounting policies under both TAS 17 and TFRS 16 are as follows.

#### a) Policies applicable from January 1, 2020

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognizes a right-of-use asset and corresponding lease liability with respect to all lease arrangements in which it is the lease, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets i.e. personal computers. For these leases, the Group recognizes the lease payments in the statement of comprehensive income on a straight-line basis over the term of the lease.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lease under residual value guarantees;
- The exercise price of purchase options, if the lease is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and decrease in book value to reflect the lease payments made.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statement of financial position.

The Group applies TAS 36 to determine whether a right-of-use asset is impaired and recognizes the identified impairment loss as described in the "Property, Plant and Equipment" policy.

Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occurs and are included in the statement of comprehensive income.

As a practical expedient, TFRS 16 permits a lessee not to separate non-lease components, and recognized the lease and associated non-lease components as a single arrangement instead. The Group has used this practical expedient.

### b) Policies applicable prior to January 1, 2020

# Operating lease

Lease in which substantially all the risk and reward of ownership of assets remains with the lessor is accounted for as operating lease. Rentals applicable to such operating lease are charged as an expense to the statement of comprehensive income over the lease term.

#### Finance lease

Lease in which substantially all the risk and reward of ownership, other than legal title is transferred to the Group are accounted for as a finance lease. The Group capitalized the leased asset at the lower of estimated present value of the underlying lease payments or at the fair value of the leased asset at the contractual date. The leased asset is depreciated using the straight-line method over their estimated useful lives. Interest or financial charge is calculated by the effective interest rate method over the term of contract. Interest or financial charge and depreciation are recognized as expenses in the statement of comprehensive income.

#### 4. SUPPLEMENTARY DISCLOSURES OF CASH FLOWS INFORMATION

#### 15. DEFERRED SALES AND ADVANCE RECEIVED FROM CUSTOMERS

Deferred sales and advance received from customers represent obligations that the Company and a subsidiary have to deliver fertilizer to the holders of delivery orders (the "fertilizer note") which have been issued by the Company and a subsidiary to its customers.

Deferred sales represent the issued fertilizer notes which have not yet been delivered fertilizer and not yet been received the payment. The Company and a subsidiary have accounted for such outstanding balance of the unpaid and undelivered fertilizer notes in trade receivables at the same amount. However, in the business practice, the customers may cancel the undelivered fertilizer notes which they have not paid for while the Company and a subsidiary are unable to cancel the undelivered fertilizer notes.

While inventories in the consolidated and separate financial statements as at June 30, 2020 and December 31, 2019, included inventories which were under the obligations that the Company and a subsidiary issued fertilizer notes or received payments from customers but the fertilizer has not been delivered (see Note 6). The Company and a subsidiary have recorded such transactions as "Deferred sales" and "Advance received from customers", respectively (see Note 14).
